## SBDC Overview

The purpose of the **SBDC** is to serve as an educational research resource for small businesses. We help small business owners enhance their knowledge of business and environmental management through individual consultations, seminars, and pre-business workshops. We also help small businesses obtain data and information that they may not be able to acquire on their own. With the exception of seminars, the counseling services provided by the SBDC are free. Funding is received from the **U.S. Small Business Administration**, the **Commonwealth of Pennsylvania**, and the **Penn State University**.
